# Letter from the directors

Global turbulence and uncertainty were the hallmarks of 2019. Climate change and geopolitical tensions were at the top of the agenda. Most countries, including many in Latin America and the Caribbean, witnessed declining faith in democracy and the closure of civic space. Digital propaganda and misinformation continued to deepen divides. Some countries also resumed heavy-handed and repressive public security policies. A newly elected Brazilian administration also made its mark, aggressively pushing back against democratic institutions, civil society, and environmental protections.

While hard to recall given global concerns with pandemics, fires, the sense of foreboding and anxiety throughout 2019 was unpalatable. Rather than retreat, the Igarape Institute redoubled its mission to deliver progressive solutions to the most pressing security and justice challenges around the world and in Brazil. The Institute's research, technology and administrative teams delivered an astounding array of knowledge products with a genuinely global reach. Between January and December 2019, the Institute produced:

- Over 32 research papers and reports in English, Spanish, French and Portuguese;
- At least 2 data visualizations, 1 phone app and multiple digital platforms;

- Keynote speeches and participation in over 171 events in 27 countries;
- More than 8,000 news stories in leading media outlets reaching billions;
- At least 186 opinion editorials in English, French, Portuguese, and Spanish; and
- Several mini documentary films, including the Financial Times and PBS.

The Igarape Institute is committed to making a real impact. In Brazil, for example, the Institute coordinated advocacy for 14 state governors and 11 former justice ministers in order to advance evidence-based public security reform. The Institute also supported several high-level panels on cybersecurity and AI that shaped national strategies and policies. The Institute also launched several campaigns and podcasts that reached hundreds of thousands of people. As in the past, the Institute presented findings in leading venues including the World Economic Summit in Davos, the World Governance Summit, TED and elsewhere.

In 2019, the Igarape Institute also expanded its mandate to research the determinants, dynamics and consequences of environmental crime. Working in partnership with the organizations such as the United Nations, International Committee of the Red Cross, Interpol, the World Economic Forum and several business coalitions, the Institute conducted research on climate stress and insecurity in the Sahel and the Horn of Africa. The Institute also launched a multi-year

initiative in eight South American countries using satellite-data to track illegal deforestation, mining and animal smuggling.

The Igarape Institute produced several cutting-edge products in 2019. For example, the Institute launched OKA, a mobile phone application that supports forced migrants to access basic services. The Institute also released EVA, a data visualization highlighting violence against women and girls in Brazil, Colombia and Mexico. Meanwhile, in South Africa, the Institute is expanding its crime prediction technologies and also developing strategies to minimize discrimination and maximize fairness. Closer to home, the Institute launched several projects to support criminal justice and penal reform, including initiatives to promote rehabilitation and recidivism reduction for non-violent (female) offenders.

Despite facing sizeable challenges, the Igarape Institute has generated some important wins in 2019. For example, the team was ranked the “top social policy think tank” in the world by Prospect Magazine. Likewise, the Institute was listed among the top NGOs in Brazil last year for the second consecutive year by Instituto Doar. As always, none of these victories would be possible without the Institute’s network of international, regional, national and grassroots partnerships. Nor would it be possible without a devoted team. We admire their courage and commitment to creating a better world.

# Activities 2019

***“I’d like to congratulate you on your fantastic, thorough, and policy-relevant work on crime and violence prevention and reduction in the Latin American region. My desk is quite literally covered with your articles and studies right now.”***

Stephanie Molina, Democracy and Governance  
Specialist at USAID

The world faced considerable turbulence and volatility in 2019. Around the world, protests over climate change gathered pace. Tensions between major powers rattled global markets. Faith in democratic institutions reached record-lows, including in mature democracies. Latin America's political environment was marked by deepening polarization. Brazil's new ultra-right conservative administration was quick to sharpen political and cultural divides. In spite of these many challenges, the Igarape Institute continued to deliver high-quality evidence-based research.

The Institute focused on five core priorities in 2019 - Citizen Security, Digital Safety, Safer Cities, Peace and Security, and Environmental Security. The team managed a portfolio of over two dozen major projects throughout the year, including data visualizations tracking violence against women and girls, crime forecasting platforms to support data-driven policing, cybersecurity governance consultations with public, private and non-profit representatives, and police, criminal justice and prison reform assistance. The Institute also expanded its work on mapping environmental crime in the Amazon and the risks of climate change, food insecurity and violence in Africa's hot spots.

# Citizen security

## Building partnerships for better public security

Brazilians are divided about what works to achieve lasting public security. Some are convinced that more police repression is needed while others are convinced that prevention is essential. In order to encourage more comprehensive approaches based on evidence, the Institute established a consultative group composed of former ministers, public prosecutors, public defenders, judges and criminal lawyers to formulate smart data-driven policy recommendations. Throughout 2019, the group issued public statements, technical notes and provided inputs to federal representatives.

## Regional commitments to homicide reduction

Latin American and Caribbean countries and cities have the highest absolute number and prevalence rates of homicide in the world. The Institute continues to maintain the largest repository of publicly available data on lethal violence – the Homicide Monitor. What is more, as part of its coordination efforts leading the Instinct for Life violence reduction campaign, the Institute has worked with the Organization for American States on a newly established homicide reduction commission. The Institute has also joined forces with Pathfinders for Peaceful, Just and Inclusive societies to launch a global initiative to reduce violence by 50% before 2030.

## Evidence-based approaches to firearms regulation

Brazil's newly elected government issued no less than nine separate bills to expand firearm availability and carrying in 2019. In response, the Institute worked with hundreds of political leaders and civil society groups to highlight the real risks such measures pose to public safety. For example, the Institute supported 14 state governors and 11 former justice ministers to advocate for responsible firearms regulation. Likewise, the institute supported the We Are Not Targets (Não Somos Alvo) campaign reaching hundreds of thousands of viewers.

## Preventing violence against women

Violence against women and girls is a significant, yet invisible, challenge in the Americas. To shine a light on the issue the Institute launched EVA – Evidence on Violence and Alternatives for Women and Girls – a data visualization platform focusing on tracking femicide in Brazil and Mexico. EVA was featured hundreds of times by the Brazilian and Mexican media. It was also cited by leading commentators and politicians in these same countries.

## Reducing recidivism in prisons

Brazil has the third largest prison population in the world. It also has one of the highest numbers of women in prison. To encourage their integration back into society and reduce recidivism, the Institute launched the *Sócios da Liberdade* (Freedom Partners) initiative. The program identified opportunities for gainful employment for inmates as well as best practices to ensure successful transition from prison life. The initiative drew praise from state penitentiary officials across Brazil and was featured in mainstream economic journals and media outlets.

## Shaping progressive public security narratives

In Brazil, and around the world, there is a dangerous return to repressive public security policies. To counter these narratives, the Institute started a new radio series with CBN to discuss what works (and what does not), reaching up to 87 million listeners. The Institute also issued eight technical notes through official media channels and delivered them to executive, legislative and judicial branches of government. What is more, the Institute launched a new report with Carnegie Endowment for Peace (launched by Hillary Clinton) and a new documentary series with PBS Nova (with Steven Pinker).

# New insights on drug policy

Many Latin American countries are stalling when it comes to legalization and decriminalization efforts. The Institute has continuously supplied hard evidence of effective strategies to reduce harms associated with drugs. In 2019, the Institute supplied information to the Brazilian Supreme Court and Congress to accelerate drug policy reform efforts. The Institute's outputs reached hundreds of parliamentarians across all parties as well as the Minister of Justice and Ministers of the Supreme Court.

# Safer cities

## Reinforcing city solidarity

At their best, inter-city networks can allow cities and urban leaders to pool resources and expand their influence on the global stage. The Institute supported several city coalitions in 2019, including the Global Parliament of Mayors. The Institute's research director has served as co-chair of the Parliament's advisory committee since 2017. In this capacity, the Institute supported the annual summit in Durban and the scaling-up of its virtual platform to promote deliberative democracy. A key outcome of the Durban event was a joint declaration committing 50 cities to halve violence by 2030.

## Reviewing technology for urban security

Cities everywhere are acquiring new technologies to help deliver safety and security. In order to support the adoption of effective and accountable security tools, the Institute works with city networks and urban authorities to provide technical advice. For example, the Institute prepared several articles in 2019 highlighting the pros and cons of predictive analytics, biometric surveillance and other data-driven tools. In 2019, the Institute partnered with Apolitical and the World Economic Forum to disseminate insights and findings to urban decision-makers and practitioners around the world.

## Accelerating city soft power

The Institute continued to influence global debate on urban diplomacy and crime prevention around the world. For example, the Institute was a keynote at the Pritzker Forum on Global Cities (Chicago), the World Governance Summit (Dubai), the World Economic Forum's Asia Summit (Dalian) and the TED Summit (Edinburgh). The Institute's directors also delivered keynotes at the World Economic Forum's annual summit in Davos in 2019 (which was highlighted in the "Best of Davos" series). The Institute's research on cities was also featured by the BBC, BuzzFeed, CNN, the Financial Times and other outlets.

# Cybersecurity

## Reviewing cyber governance in Brazil

A major priority for governments around the world is ensuring a comprehensive, coherent and coordinated approach to cybersecurity. In Brazil, the Institute is working with the country's CD-Ciber, Cyber Command, the national development bank (BDNES), as well as regulators and digital rights groups to help strengthen cybersecurity norms in a manner that respects and protects data rights and associated legislation. The Institute also published articles on Brazil's cybersecurity and data protection priorities with Americas Quarterly, the Council on Foreign Relations, and other outlets.

## Shaping debate on the future of AI

One of the key questions facing governments and private companies everywhere is how to manage and regulate AI. Throughout 2019, the Institute was involved in a host of global and national initiatives related to the future of these new technologies. For example, the Institute sent technical inputs to the national SINESP Big Data and AI Initiative led by Brazil's National Secretariat for Public Security. The Institute also participated in panels on the future of AI and security at events from New York to Dalian. The Institute also published several reports on AI and public security, all of which were featured in English, Portuguese and Spanish media outlets.

## Debating cybersecurity

The scope and scale of cyber threats are still poorly understood. To fill this knowledge gap, the Institute accelerated its public speaking engagements in major international fora in 2019. Examples include the CYBERSEC Summit – the largest gathering of industry experts in Europe. The Institute also contributed to United Nations deliberations on cyber security, including the open-ended working group and group of governmental experts on cyber norms and resilience. Institute researchers were invited to present related research to the EU External Action Service, KAS, and the Organization of American States, among others.

## Deepening research on digital surveillance

There are growing concerns that surveillance platforms – including facial recognition and other biometric data collection tools – are undermining civil liberties. In order to help shape awareness of these issues in Brazil, the Institute launched a new infographic tracking facial recognition deployment across Brazil. The Institute also initiated a new initiative with Essex University to track the ways in which such technologies are being deployed by law enforcement agencies across the country. Initial findings were reported by Agência Brasil, Brazil Report, CanalTech, CBN, Jota, Medium, Mundo Mais Tech, and the Seipod podcast.

# Building peace

## Supporting Brazil's female peacekeepers

At least two decades have passed since the first United Nations resolution on women, peace and security (YPS). Yet the organization continues to lack adequate female representation in peace support operations around the world. In 2019, the Institute conducted a large-scale survey of female Brazilian peacekeepers. The results were published as infographics and publications and shared with experts across the Americas and in the United Nations.

## Empowering forced migrants with new technologies

There are roughly 26 million refugees and over 40 million internally displaced people around the world in 2019. A key challenge for many is accessing basic services. To help empower people on the move, the Institute designed and launched a new mobile phone app to geolocate basic services. Designed and built with refugees from the Democratic Republic of the Congo, Syria, and Venezuela, OKA was presented at the 2019 Paris Peace Forum. The app is operational in Brazil and was downloaded thousands of times since going live. The Institute is expanding to Colombia and Ecuador with support from Tinker Foundation in 2020.

# Climate security

## Mapping illegal gold mining in the Amazon

Illegal gold mining is expanding across the Amazon and this is undermining environmental protection efforts. Throughout 2019, the Institute expanded field research on wildcat mining, including relationships with organized crime and drug trafficking groups. The Institute mapped out mines using satellite imagery and published findings in partnership with the Financial Times, Folha de São Paulo, Project Syndicate, and the World Economic Forum's Agenda. The Institute also released an animated story about illegal mining with Earthtime which was reproduced in multiple media outlets.

## Clarifying the climate-security nexus

There are still acrimonious disagreements in the United Nations Security Council and General Assembly over the relationships between climate change and insecurity. In 2019, the Institute also spoke at the Climate Summit (COP25) in Madrid and launched a new report with the Institute for Climate and Society (ICS) detailing the challenges in Latin America and the Caribbean.

## Tracking Amazon fires

The rapid escalation of intentional fires in the Amazon triggered a global outcry in 2019. The Institute worked with governments, universities and environmental NGOs to publicize both challenges and potential solutions. The Institute circulated widely read publications with the Agenda, Foreign Policy, and foreign outlets and reached out to AFP, Bloomberg, Channel 4, Deutsche Welle, New York Times, Wall Street Journal and the Washington Post. In total, the Institute generated over 1,000 stories and launched a mini documentary with the Financial Times – This is the Amazon – reaching hundreds of thousands of people on social media.

# Affiliations

Igarape Institute researchers are regularly invited to join international and national networks and organizations. In 2019, Institute researchers were approached by foreign policy think tanks, top-ranking universities, and international organizations to serve as fellows or join their boards. A shortlist of nominations in 2019 is included below.

- **Americas Quarterly (Board member)**
- **Brazilian Center for International Relations (Cebri) (Counsellor)**
- **Canadian Global Affairs Institute (Fellow)**
- **Chicago Council for Global Affairs (Fellow)**
- **Columbia University, SIPA Lemann Fellowship (Fellow)**
- **Global Council on Sustainable Development Goal 11, Smart Dubai (Associate)**
- **RESOLVE Network (Board member)**
- **Small Wars Journal (Fellow)**
- **World Economic Forum Council on the Future of Cities and Urbanization (Associate)**
- **World Economic Forum's Global Risk Report (Advisor)**

# Awards

- **Top Social Policy Think Tank in the World, Prospect magazine**
- **100 Best NGOs in Brazil, Instituto Doar, for the second consecutive year**
- **Faz a Diferença Award (Nomination), Globo**
- **Listed among Latin America's Top NGOs, Go to Global Think Tank Index, for the fifth consecutive year**
- **2019 Claudia Awards (Nomination)**

# Outreach

***“I entered the page and was surprised  
by the excellent work and presentation.  
Congratulations!”***

Marcello Andrade Leonardi, BASF's Corporate Security manager

# Research

In 2019, The Igarape Institute produced a wide range of strategic articles, strategic notes and academic publications. On the academic front, the Institute's publications are featured on the JSTOR platform, an online library of academic publications. They are also featured by the World Economic Forum's information platforms, UN libraries, and multiple university sites.

Knowledge products generated by the Institute were downloaded almost

**260,000** times in 2019,  
a significant improvement on 2018  
**140,500** in 2018

Over **400** academic citations in Google Scholar and Academia

Most downloaded publications in 2019

**26,698 downloads**  
Brasil e o Sistema das Nações Unidas

**19,653 downloads**  
Citizen security in Latin America: Facts and Figures

**12,310 downloads**  
The Handbook of Conflict Prevention

# Events

Igarape Institute personnel were involved in a wide range of events around the world in 2019. In some cases they were keynote presenters, panellists, and participants.

In total, staff participated in

**178 events**  
**24 countries**

**Amazonian Leapfrogging: Long-term Vision of the Amazon for Brazil and the Planet (Princeton)**

**Brazil Conference (Boston)**

**Brazil Forum UK (Oxford)**

**Café Literário, Bienal (Rio de Janeiro)**

**Carbon Investment Forum (Ouarzazate)**

**COP25 (Madrid)**

**Cybersec (Katowice)**

**Festival Geração do Amanhã (Rio de Janeiro)**

**13º Fórum Brasileiro de Segurança Pública do Brasil (João Pessoa)**

**Global Parliament of Mayors (Durban)**

**Paris Peace Forum (Paris)**

**Pritzker Forum on Global Cities (Chicago)**

**Smart Cities Expo (Doha)**

**TED Summit (Edinburgh)**

**World Economic Forum (Davos)**

**World Economic Forum Annual Meeting of the New Champions (Dalian)**

**World Economic Forum Summit (New York)**

**World Government Summit (Dubai)**

# Media

The Igarape Institute seeks to engage the wider public through strategic media outreach. The Institute influenced opinion shapers and decision makers through opinion articles in selected news platforms. In 2019, the Institute's research was featured in the BBC, CNN, El Pais, El Tiempo, Estadao, Financial Times, Folha de São Paulo, Foreign Policy, Globo, Guardian, New York Times, Wall Street Journal, Washington Post, and many others.

The Institute generated

**7,945**

media citations in 2019. This represents a

↑ 75%  
increase on 2018

The advertising expenditure to generate equivalent profile is estimated to be

**US\$ 60 million**

Media stories were generated in over

**114 countries**

↑ 35%  
increase on 2018

The Institute also  
generated more than

# 290 opinion articles

across

# 145 media outlets

in

# 12 languages

The Institute has also attracted  
considerable viewers to its site  
and social media profiles. The  
organization received over

# 330,000 page views

in 2019 and more than

# 1.6 million people

interacting on its social networks. The Institute  
generated a strong partnership with the  
Financial Times in 2019, as well as stories in  
Fantástico and Jornal Nacional. Many of its  
opinion editorials were ranked among the most  
read with Americas Quarterly, Foreign Policy  
and Project Syndicate.

# About us

***“On behalf of ProColombia, I congratulate the efforts of the Igarape Institute. The web page is a great source of information on security topics, and the research done is of great value to all the public and private entities in Latin America.”***

Laura Gasca Beltran, Vice President of Innovation and Sectorial Intelligence at ProColombia

# The Igarapé Institute **Think. Connect. Transform.**

Igarapé Institute is an independent think and tank, dedicated to integrating security, development and climate agendas. The Institute's goal is to propose data-driven solutions and partnerships to global challenges through research, new technologies, and strategic communication. The Institute is a non-profit, independent and non-partisan institution, headquartered in Rio de Janeiro, with activities in Brazil and across Latin America and Africa. The Institute was ranked the world best social policy think tank in 2019 by the Prospect Magazine and listed as among the top 100 Brazilian NGOs since 2018.
